14 November 2022

Report to the line manager of

TIMOTHY ROBINSON, 12/08/1976:

EIN: 611691734

OUC: NPG683

Introduction

I undertook a telephone assessment of Mr Robinson on 14 11 2022. There are no previous occupational health reports on file. Mr Robinson will receive a copy of this report before it is sent to management.

My report is based on my findings and the case notes from the OH team. Please note that consent has been obtained for the provision of this report. It is given for advisory purposes only and is not legally binding on any party.

Current Position

Mr Robinson is a SME CSA which is a DSE based role coordinating moves of SME from a BT perspective. The role would involve upselling and Mr Robinson prides himself on his success in role. He has been with BT for 5 years and works full time Monday to Friday. The role is currently hybrid.

Your referral notes that Mr Robinson has been absent from work since July 2022 with stress at work. You will be fully aware of background and Mr Robinson's original grievance you will also be aware of his perception of Union involvement and, as he described it the big politics as well as BT internal politics involved.

Mr Robinson describes a protracted build up of stress culminating in his current absence. He is practicing mindfulness. He is not receiving any specific therapy at this stage. He has received some advice through BT and EAP about letting the matter go and moving on. His GP however has counselled against this and suggests the matters need resolution.

Mr Robinson's health is improving. He is coping with day to day activities. He is sleeping well. He is going out for walks. He does report some acid reflux which he is managing with diet changes and medication as necessary.

Health Management Ltd (registered number: 4369949) is registered in England and Wales. Registered office: 18c Meridian East, Meridian Business Park, Leicester, LE19 1WZ, UK

Mr Robinson believes that BT need to review the position and situation and come back to him about how to resolve the issues. These are not medical matters but matters that are between management/employer and the employee.

Specific Questions

Likely date of return to work?
Unknown at this stage

Do any temporary or long-term restrictions apply and for how long?
Not applicable until a resolution of issues can be reached.

What if any self-help options may help the employee deal with the issues raised?
Not applicable.

Is the employee likely to render reliable service and attendance into the future?
Unknown at this stage

Is performance significantly affected by ill health and for how long is this likely to continue?
At present he is unfit to work as he would struggle to focus and I suspect the issues raised would distract from performance.

Is the employee fit to continue in their current post?
Not at present. However as noted resolution here is purely medical; the work related issues must be resolved before a successful resumption of work by Mr Robinson is likely.

Future Plans

I suggest that the matters raised are reviewed and further discussion with Mr Robinson had. If the issues can be resolved then I do not see that medical condition itself would be a major barrier but in the absence of resolution a return to work seems unlikely. Further OH referral is only likely to be of benefit if the work issues can be successfully resolved. At this stage a letter from GP is unlikely to tell me more than Mr Robinson has.

Yours sincerely

M J Charlson

Employee to receive a copy of the report before management

To ensure you get the most out of this advice report and maximise the employee's capabilities within work, BT/EE recommend that the line manager arranges a 1:1 meeting as soon as possible to discuss the report content with the individual and agree a plan for the future that meets the needs of the individual and the business.
